Tata Consultancy Services , Pune.
June 2021 - Present

Recruitment Portal: Full stack development
Skills - React with typescript, HTML , CSS , C#,SQL, Azure

- Collaborated closely with UX designers to transform wireframes into responsive web pages, leveraging strong proficiency in HTML, CSS, and React.ts.
- Developed reusable and clean components enhancing the user experience and interface.
- Engineered a multi-select drop-down functionality to establish efficient filters, improving data navigation and selection.
- Utilized Graph API to implement a people picker functionality, executing API calls both on the front-end and back-end.
- Utilized the Axios library for API calling, and implemented methods using async and await for efficient handling of asynchronous operations.

Retail Site — Backend Development
Skills – C#, Azure, Database

- Operated within an Agile development model, promoting iterative development and a flexible response to change.
- Developed Azure Logic Apps to automate manual tasks, enhancing productivity and reducing the potential for human error.
- Created APIs to retrieve data from databases and transmit it to the frontend, ensuring seamless data flow and integration.
